Patricia brings strong research and design skills with careful attention to detail.

Patricia completed her degree in urban design and planning at the University of Melbourne in 2016. Having qualifications in both design and planning has enabled Patricia to undertake a variety of tasks across the two disciplines, which has proven valuable to the team at Mesh, particularly when engaging with strategic planning projects.

Patricia brings strong research skills, design skills and knowledge through the use of software applications, and careful attention to detail to projects. Her skill set helps to ensure that the best project outcomes are achieved. She is currently undertaking further studies in urban planning and environment at RMIT University.
